

## SPECIFICATIONS:

## INPUT

Ac Input: 90-132 Vac/180-264 Vac, 47 to 63 Hz . User selectable. See option "A" for automatic line selection. Internally fused for 15 A. Inrush: Cold start ac current is less than 90 A at 115 Vac and 30 A at 230 Vac . Limited by thermistor.
Holdup Time: 16 ms minimum after removal of power, at nominal line, full load.
Efficiency: 80\% typical.
Brownout Protection: Holds regulation to 85 Vac or 170 Vac.
OUTPUT
Adjustability: User adjustable $\pm 5 \%$ minimum.
Line \& Load Reg: $\pm 1 \%$ over ac input range and 0 to $100 \%$ load change. Output \#1 requires minimum load of $10 \%$.
Ripple \& Noise: Less than $1 \% \mathrm{p}$-p or 100 mV , whichever is greater.
Remote Sense (Output \#1): Compensates for 250 mV total line drop. Open sense lead protection.
Temperature Coefficient: $0.02 \%$ per degree C .
Stability: $0.1 \%$ over 8 hours after 30 minutes warm-up.
Transient Response (Output \#1): Output voltage returns to within $1 \%$ in less than $500 \mu \mathrm{~s}$ for a $50 \%$ load change. Peak transient does not exceed 5\%.
Overload Protection: All outputs are protected against overload and short circuit. Automatic recovery upon removal of fault.
Overvoltage Protection (Output \#1): Protects load against power supply induced overvoltage. Trip point is factory set so that output voltage cannot exceed $136 \%$ of nominal.
Remote Inhibit: Contact closure to the negative sense line drops output power to nominal zero.
Reverse Voltage: Protected against reverse voltage up to supply current rating.
ENVIRONMENTAL
Thermal Protection: Shuts down power supply if overheated. Automatic recovery.
Temperature Range: $0^{\circ}$ to $50^{\circ} \mathrm{C}$ at full ratings. Derate to half power at $70^{\circ} \mathrm{C}$.
Safety Agencies: Most models are approved to UL1950; CSA 22.2 \#234; IEC 950 and TÜV EN60950, Class 1 SELV., CE 72/23/ EEC/93/68EEC (low voltage directive).

## FEATURES:

- Over 4 watts $/ i^{3}$ power density
- $80 \%$ overall efficiency
- VMEbus and Multibus II system compatibility
- Meets international safety agency requirements
- All outputs fully regulated $\pm 1 \%$
- High peak current for motor starting
- Ac automatic line selection option

Conducted RFI: Meets FCC Part 15, Subpart J, Class A; EN55022 Class B; CISPR 22 Class B.
Cooling: 30 cfm required to achieve full ratings.
Output Isolation: Isolated from ground 50 Vdc .

## OPTIONS:

Option "A", Ac Auto-Range: Automatically selects proper ac line voltage range to enable power operation at either 115 or 230 Vac without user intervention.
Option "P", Ac Power Fail: Provides TTL " 0 " 5 ms before output voltage goes out of regulation band upon loss of ac power. VMEbus compatible, provides 48 mA sink current capability. Not available if option " $G$ " is selected.
