

Article Number: 110-09005

Description: MK7 & MK9 - Special CO2 fittings for attachment to CO2 tank from the tool.

Base Data	Local Order Number	MKPCOHOSE
	Type	MKPCOHOSE
	Features and benefits	<p>The MK3PNSP2 tensioning tool achieves unique levels of repeatability and accuracy while maintaining a high application speed. One further advantage is its low maintenance handling.</p> <p>The MK7P pneumatic bundling tool sets a new benchmark for the rational application of ties in the industrial production process. Improved compressed air supply moves the tensioning piston faster than in comparable tools. Processing time is shortened and the volume of connecting ties applied is increased. Great attention was paid to ergonomic design in the development of this tool. The cut-off end of the tie is ejected automatically. Production breaks normally required to the cut-off ties are thus eliminated.</p> <p>The MK9P is ideally designed to apply heavy-duty ties (T50-T250), clamp and button head ties. The MK9P incorporates the next level of ergonomic improvement with its low weight, comfortable grip and easy trigger depression.</p>
