Description

Tripp Lite's N250-024-LP, Cat6 Feed-Through Low Profile patch panel, makes cable patching quick and easy, by simply plugging Cat6 patch cables into either side of the Cat6 couplers. Ninety degree angles on the couplers allows for low profile mounting to a wall with included stand-off brackets. Cables feed into the front of the panel, and corresponding patch cables exit Up, Down, Left, or Right, depending on the mounting position. Patented printed circuit board design within the coupler exceeds NEXT requirements for Cat6 component testing, assuring Gigabit+ speeds.
